Re: WAGY, Inc. (WI)
WAGY(AM), Forest City, NC
Facility Identification Number: 70700
Special Temporary Authority (STA)
BESTA-20190214AAM

Dear Ms. Huskey:

This is in reference to the request filed on February 14, 2019. WI requests an extension of the STA granted on August 22, 2018, to continue operating daytime to allow time to file the required FCC Form 302 license application to cover BP-20181218AAG.¹ In support of the request, we noted that additional time will be needed to prepare and file the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and WI may continue to operate daytime only with its current licensed facilities. WI must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **September 6, 2019**.

¹ WAGY(AM) is licensed for operation on 1320 kHz with 1 kW day (ND) and 0.5 kW night (DA), and BP-20181218AAG authorizes the use of the existing daytime tower at night with reduced power, with no change to the daytime facility.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a horizontal line extending to the right.
